

Lug Pattern Measurement Diagram

How to calculate your Pitch Center Diameter (PCD)

If you have a 4- or 6-Lug Pattern:

4-Lug

6-Lug

Measure from center to center of the studs. (X) = your Lug Pattern/PCD.

Express your Lug Pattern/PCD as:

 # of lugs on a (X) circle

If you have a 5-Lug Pattern:

5-Lug

Measure from the inside of one hole to the outside of the farthest hole. Use the chart below to find your Lug Pattern/PCD.

If (X) measures:		Then your Lug Pattern/PCD is:
in inches	in mm	
3.804	96.63	4"
4.042	102.67	4.25"
4.280	108.7	4.5"
4.518	114.74	4.75"
4.755	120.78	5.0"
5.231	132.86	5.5"

Express your Lug Pattern/PCD as:

5 on a (Y) circle

(Y) is the measurement in inches from the third column in the above chart.
